Whether you are the sole person responsible for fundraising or whether you have a team dedicated to the task, there are elements that must be part of your program if you are to be as effective as you can be. We will talk through these essentials and help you apply them to your situation.

IV. Conclusion

Strategic planning and goal-setting are critical to moving toward excellence in Development. But they will be ineffectual if the plan is not operationalized and reviewed on a regular basis (at least quarterly). We must move forward with discipline and intentionality, all the while being open to God's activity in, under, and through our efforts to bring about His best for our ministry.
