

Tools for Coaching Church Planters

The success rate of church planting is lifted dramatically when a qualitative and consistent coaching system is implemented. Throughout the church-planting journey, the church planter will develop skills and improve performance based on real life ministry, and thereby build awareness and responsibility for the choices he or she makes. This session will focus on general overview of available CP coaching tools and list of issues to which the coach needs to pay particular attention.

Jiří Unger is General Secretary of the Czech Evangelical Alliance and since 2012 he has been leading a national church planting initiative which provided church planting training for 29 church planting teams from the Czech Republic and Slovakia. Jiří has been trained in both secular and church planting coaching. Jiří is member of the international leadership team of church planting movement called M4.
